# Inside/Out Lecture series

Each year the student reps are given a budget with which to fund a series of speakers, designers, artists, whomever that they want to hear from about their work. The students curate, organise, advertise and manage this process and event and it's a very successful and enjoyable part of their learning.

Many thanks to the speakers, many of which undertook the talks for free, and of course to the students for their excellent organisation and careful coercion of busy people into a room at the college to talk about their work and be questioned by curious students for a few hours. In particular special thanks to James Watts, Year 2 Interior Design, for the elegant graphic design of the posters.
